

ANUNAY BRINI

Developer Lab

About Me

I'm a web developer and machine learning practitioner focused on building clean, user-friendly interfaces backed by practical ML models using Python and scikit-learn. I enjoy combining thoughtful UI/UX design with real-world ML integration to create polished, usable web-based solutions.

Skills

- Python
- C
- Java
- HTML
- CSS
- Figma
- Graphic Designing
- PHP

Language

- Malayalam
- English
- French

Education

(2024-2028)

RAJAGIRI COLLEGE OF SOCIAL SCIENCES

Bachelor of Science in Computer Science
with Data Analytics

(2022-2024)

S.B.O.A. PUBLIC (SR. SEC.) SCHOOL

Computer Science

Professional Experience

(2024)

ERA

UI-UX DESIGNER

- I designed clean, user-focused UI/UX experiences using Figma, emphasizing usability, consistency, and modern visual design.
- My work includes mobile-first layouts, intuitive user flows, and polished interfaces for web and ML demo applications.

(2025)

ERA DEVELOPER LAB

FULL STACK DEVELOPER

- At Era Developer Lab, I worked on building and integrating machine learning models using Python and scikit-learn into web-based tools.
- I also developed clean UI interfaces and automated evaluation and prediction workflows to support ML demos and internal utilities.
